Fuel Tank:	3600 lt 951 gal	Water Tank:	800 lt 211 gal
Black Tank:	330 lt 87 gal	Grey Tank:	330 lt 87 gal

YACHT DESCRIPTION:

Architect:	Fulvio de Simoni	Material:	GRP
Internal Furniture:	Light Oak Wood	External Hull Colour:	Metallic Silver

MARLEENA-A is a Pershing 7X that delivers exactly what the model promises—speed, control and a sharp, contemporary presence. Built in carbon and driven by twin MAN V12 engines with surface drives, she reaches 50 knots with ease while remaining composed thanks to advanced stabilisation. Her design is clean and deliberate, with a sliding roof and large glazing creating a strong connection to the sea. Exterior spaces are practical and well proportioned, from the cockpit to the bow lounge. Inside, the atmosphere is modern and restrained, offering a yacht that feels both fast underway and comfortable at anchor.

INCLUDED in the price:

- A BERTH in Moll Vell, Palma de Mallorca, optionally available as part of the purchase, adds immediate operational convenience in a prime Mediterranean location.
- Spanish Charter license (active).
- Full Service for 2026 season (worth 70k euros).

LAYOUT:

The layout follows a clear and functional three-cabin configuration. The main deck is centred around a bright saloon with opening roof and direct connection to the cockpit, creating a single, fluid living space. The helm is positioned forward, fully integrated with dual screens and joystick control. Below deck, the full-beam master sits midships, with a VIP forward and a twin guest cabin to starboard, all with en-suite bathrooms. The galley is located on the lower deck, allowing separation between service and guest areas. Crew accommodation is aft with independent access, ensuring privacy and efficient onboard operation.

BROKER COMMENTS:

M/Y MARLEEN-A is a compelling example of the Pershing 7X—lightweight, fast, and intelligently specified. What stands out is her balance: aggressive performance paired with genuine usability. With a strong specification, recent upgrades, and optional Palma berth, she presents a rare opportunity to acquire immediate capability in a highly sought-after segment.
